Some Republicans said they doubted the availibility of Mr. Woodruff on the ground of his alleged connection with the salt and typewriter trusts. Mr. Woodruff has frequently and positively denied any connection with these two trusts and has insisted that the salt and typewriter concerns with which he is associated are emphatically independent companies.

The opposition next fall Republicans expect to be bitter and searching, so that they are looking for a man to succeed Mr. Odell who will be free of all entanglements which in the present temper of the people might be misconstrued. Mr. Odell himself has not been backward in pointing out the unavailability of Republicans who from time to time have been mentioned for his place-Mr. Aldridge's connection with the \$9,000,000 canal scandal, Mr. Woodruff's alleged connection with the salt and typewriter trusts, "Thousand Legged John" O'Brien's coal contracts with the State departments, being Secretary of State and interested in a great coal concern; fact that Mr. Barnes is a stockholder in an Albany printing company which has had vast contracts with the State and Representative Vreeland's alleged connection with Indian bills at Washington which have come in for keen criticism in western New York, and so on. this way, Republicans said last night, Mr. Odell, without intending it, has been performing a service to the eminent Republicans who are to rid the party of Mr. Odell

By the process of elimination in which can hold on to his job Republicans deeply interested in lining up the party strong and solid for the approaching campaign expect that within a short time the right Republican to succeed Mr. Odell will be

Keeper and Bartender in Cells. Cyril Ward of 319 West Forty-ninth street, played pool in the rear of Hillrich Oeljeschlager's saloon, at 687 Ninth avenue, last night. He says an attempt was made to swindle him. He raised a row and some time later showed up at the West Fortyseventh street station with a complaint

that Charles Dibler, the bartender, had Detective John Tobin was sent with Ward to investigate. Ward was sent into the saloon first, and just as he entered Proprietor Oeljeschlager banged him over the head Tobin then jumped in and grabbed the saloonkeeper, at the same time showing his shield and announcing that he

was a policeman.

While Tobin held to Oeljeschlager, the bartender slipped from behind the bar and swatted the detective over the head with a bottle. This gave Oeljeschlager a chance to free himself from the grasp of the detective and he yanked out a big revolver. Tobin also drew his gun and he held both the saloonkeeper and bartender

Four plain clothes men soon arrived at the saloon and Oeljeschlager and his bar-tender were locked up. Ward was also detained at the station house, as the police didn't want to run chances of losing him as a witness.

ONE OF KILBURN'S REPORTS.

State Building and Loan Associations in a Prosperous Condition.

ALBANY, March 1 .- Supt. F. D. Kilburn of the State Banking Department, in his report to the Legislature to-day, relative to building and loan and savings and loan associations, renews his recommendation that loans upon the dividend or second mortgage plan should be prohibited; that no association should treat as a present profit or earning any portion of the gross premium included in the face value of mortgage loans which have not been actually earned, and that every association should be required to set aside a portion of its not profits each year for a contingent or reserve fund from which possible losses

Now only one-third of the receipts of an association need be applied to the payment of the holders of matured stock and those desiring to make withdrawals from the associations, and Supt. Kilburn favors an increase in the amount payable to the holders of such stock. He also favors a law to provide that where associations are in slow process of liquidation eal estate can be paid in lieu of cash where the receipts are insufficient to meet stock filed for withdrawal.

During the year the assets of the associations increased \$63,399. This increase is the first that has occurred since 1890. AWARD SET ASIDE.

New Commissioners to Appraise Property Under Water of East River Gas Co.

ALBANY, March 1.-Attorney-General Mayer to-day received from Justice O'Gorman a decision sustaining the State and the city of New York in their objections to the award made by commissioners in regard to the property under water condemued by the East River Gas Company of New York city for purposes of a tunnel from New York to Ward's Island. The commissioners were Senator Thomas F. Grady, ex-Senator, now County Clerk, P. J. Dooling and former Chief of Police Thomas Pooling and former Chief of Police Thomas F. Byrnes. The award was made under the previous State Administration but was objected to on behalf of the State by Attorney-General Mayer, who contended that the privilege which the East River company was to secure for \$500 to the State and \$3,000 to the city was easily worth assertal thousand dellars to the State always.

State and \$3,000 to the city was easily worth several thousand dollars to the State alone. The opinion of Justice O'Gorman says.
